

Each Cap Includes

- 1 - Classy Cap
- 1 - Low voltage light socket & cam
- 2 - #4 stainless steel mounting screws
- 1 - 4 watt bulb
- low voltage "landscape" transformer sold separately

Note: Please make sure that the total wattage of the bulb does not exceed the wattage of the transformer. i.e. 15 Classy Caps x 4 watt bulbs=60 watts. Need minimum 60 watt transformer capability.

- Always adhere to low voltage transformers installation and operating instructions.

USE CABLE	FOR UP TO
14 gauge	150 feet (45m)
12 gauge	200 feet (60m)

LIGHTING INSTRUCTIONS:

1. Vinyl Post - Feed low voltage cable through hollow post as shown in fig (A). Use steel fish tape to easily feed cable. Leave minimum 6 inches of excess cable above top of post to allow for light socket connection to cable & reconnecting light socket to classy cap. Fig. (A)
Wood Post - Hide cable along underside of top rail. (Heavy duty staples work well to fasten cable). Drill holes vertically and horizontally thru post large enough to accommodate cable as shown in fig. (B).
2. Remove low voltage light socket from classy cap turning clockwise and connect cable to socket as shown in fig. (C) & (D). Note: First fixture must be installed at least 10 feet from transformer.
3. Insert 4 watt bulb provided. For brighter light, do not exceed 11 watt bulb.
4. Reconnect light socket to classy cap and place cap firmly onto post. If light does not work, adjust socket and cable connection, see control unit installation instructions.
5. Secure classy cap to post using two #4 stainless steel mounting screws provided. (Pre-drill 5/64" pilot holes into post to easily fasten screws).
6. Repeat procedure at next post.

Note: Classy Caps feature a removable lid to easily replace bulb. Carefully pull up all 4 corners of lid, replace bulb and firmly snap lid back into place.

Caution: Fixture(s) must be installed in accordance with all local codes and ordinances. Do not install within 10 feet (1.52m) of a pool, spa, or fountain. Do not use tungsten halogen lamps.

Two Year Warranty

Class Caps Mfg. Inc. products are warranted to be free from defects in workmanship or materials at the time of purchase for a period of two years, when properly installed and operated under normal conditions. Should any evidence in materials or workmanship appear within the warranty period after the date of purchase, Classy Caps Mfg. Inc. will either repair or replace the product at its option.
